REASONS FOR ALLOWANCE

Claims 1, 4-15, 19, & 20 are allowed over the prior art.

The following is an examiner's statement of reasons for allowance:

The subject matter of the independent claims could either not be found or was not suggested in the prior art of record.

With respect to claim 1, the subject matter not found was the method for extracorporeal blood treatment comprising the steps of engaging a single member carrying a waste, replacement fluid, and blood withdrawal lines to a treatment machine; the member and treatment machine being configured such that by said step of engaging a single member, at least one pump is enabled to pump fluid through said waste, withdrawal and return lines, in combination with the other elements (or steps) in the claims. Claims 4-12, 14 & 15 are allowable since they are dependent from allowable claim 1.

With respect to claim 13, the subject matter not found was the method for hemofiltration comprising the steps of measuring the actual blood flow rate delivered by the pump using a flow sensor; comparing the actual blood flow rate with a blood flow rate indicated by a pump speed; and activating an alarm responsively to a difference between the actual blood flow rate indicated by the flow sensor and the blood flow rate indicated by a pump speed such that said alarm is activated when said difference

exceeds a predetermined value, in combination with the other elements (or steps) in the claims. Claim 19 is allowable since they are dependent from allowable claim 1.

With respect to claim 20, the subject matter not found was the method for extracorporeal blood treatment comprising the steps of connecting a patient's vascular system to a blood withdrawal and return lines; fastening a member carrying a waste, replacement fluid, and blood withdrawal lines to a treatment machine; the member and treatment machine being configured such that by said step of connecting, the waste, withdrawal, and return lines are engaged by, and actuated by the pump, in combination with the other elements (or steps) in the claims.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Patricia M. Bianco whose telephone number is (571) 272-4940. The examiner can normally be reached on Monday to Friday 9:00-6:30, alternate Fridays off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Angela Sykes can be reached on (571) 272-4955. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
